

AMBER VISION

protecting

West Virginia's Children

- AmberVision is designed to locate missing children.
- AmberVision uses state-of-the-art technology to provide accurate information as soon as a child is reported missing.
- This information is **HIGHLY SECURE** and can only be accessed should a child be reported missing.
- In the fall, students in the West Virginia public school system may be enrolled in AmberVision at no cost.
- Find out more by visiting wvde.state.wv.us/ambervision
